

NERI

New Delhi (India) | Central Vista Rajpath | Lighting

We are proud to share the images of our new installation at Central Vista Project - New Delhi. Neri has designed, manufactured and supplied the Light fixtures for Rajpath at Central Vista. While maintaining the aesthetics of the light fixture used at the time of original construction - Neri introduced the latest LED technology inside these fixture. The light fixtures are equipped with electronic modules with Near Field Communication - that provides the luminaire digitally addressable lighting interface capable of coordinating with latest smart street lighting control systems. Latest LED chips used in the light fixture ensured rich illumination of the Rajpath.
